5) It will be seen from the Residency letter no 5696 of 13-10-1902 that such telegrams were being sent to the Residency also. But the practice at present is that only copies of telegrams or reports received from the Mining Inspectors of mines or the Special Magistrate, K.G.F. regarding the accidents occurred in the mines are being sent to the Residency. There is no reference available of the when & under what authority the submission of such telegrams was prescribed. Submitted for orders.

Asst. 20/6/23

6) The present practice is based on the G.O. of 27th March 1915 pointing out that there does not appear necessity to spend money on sending these telegrams, at least in cases of accidents of not more than ordinary importance or in which only one or two persons are killed.
